

PROGRAM QUALITY DIRECTORS' DISTRICT 112 REPORT **9 August 2020**

Report from Stephen Budai, DTM **Program Quality Director 2020 – 2021**

DISTRICT GOAL:

This year the District team would like to achieve Select Distinguished District, and this is achievable with the assistance and co-operation of all club members and their clubs

The year has got off to a flying start with 145 Levels completed and lodged with Toastmasters International in the first 5-week period. This is a tremendous effort and bodes well for the balance of the year.

Congratulations to our 2 latest Distinguished Toastmasters, Nigel Michels and Georgina Templeton.

Club Officer Training Round 1

Congratulations to all our Club Executive officers who attended one of the eight COT online sessions held for round one.

This is a marked improvement in the last few years with great feedback from those who attended. I would like to thank all the Division directors and their teams as they all hosted a session each. It is amazing watching the growth and confidence from all the Area Directors that participated. There will be one more washup session for club officers that missed out on attending one of the previous sessions to aid their clubs in achieving a valuable DCP goal and this is scheduled for 19 August. It will be fabulous if we have a large group of executive officers attend this session.

Pathways Champions

The program for Pathways Champions will be revitalised and with the assistance of Mike Diggins the intention is to support all clubs throughout the District in achieving a perfect Pathways Adoption. We are searching for further support and if you are already on Level 4 or Level 5 of your path please consider what you can do to help your fellow Toastmaster members.

The District is targeting on achieving 100% adoption rate for the 3 categories that are monitored (New Members, Club Executive officers, and Membership overall).

This is a reachable target as we need to look after all new members and encourage selecting their paths and presenting the foundation Ice breaker speech as early as possible. All executives should be enrolled and operating in Pathways as they are the leaders for their clubs and will be modelled by the newer members.

District Officer Training

We are currently at 80% level for District Officer training which is light on what we need.

We will pick up the new Area Directors and those that missed the opportunity earlier this year.

It is my intention to train up the Area & Division Directors to ensure they are equipped to take on the role that they have been assigned.

Workshops

Workshops will be encouraged and now we are planning our second Judging workshop. The next one will be hosted by Jess Vargas (P5) and will be available as an online session scheduled for 2 September.

Conference 2021

The next conference will be at Waipuna Conference Centre and there has been particularly good interest in the event at this stage. Registration is available now and will be exciting as we missed out this last calendar year.

Awards Night

This is scheduled for 12 September 2020 at Ellerslie Events Centre and will be an event to honour those who have achieved during last year. This could be a bumper event as there were many awards achieved last year

Area Director Peer Group

This has come about from the experiences I had whilst on the Club Growth Directors Peer Group and thought this could be extended to our Area Directors.

With two sessions completed the feedback has been positive and gives me the confidence that the Area Directors this year will be better equipped and great prospects for advancement next year
