#### Changes and Strategies

As a reminder, the role of the Program Quality Director is to manage all aspects of education and training within our district. How that relates to the District mission is to support our clubs in achieving excellence through Club Officer Training and educational workshops to fill any gaps that would be beneficial to our club.

The continued workshops from last year are the monthly Pathways onboarding but over the holiday months of December and January have somewhat diminished. We will be taking a more focus approach from now and targeting all members that have not enrolled in a Pathway as well as new members.

Contests (Club/Area/Division/District) are fast approaching. Discuss with your members/officers/neighboring clubs about how to best run these – your Area Directors are also available to advise you on this.

The other workshop that was run in November was speech contest workshop – this was recorded and if anyone wishes to watch it – here is the link - <https://www.youtube.com/playlist?list=PLFVisBt46iSthdQ9gIZJuevGa9zGkqIAs>

The Trio is currently working on a strategy to get many clubs to distinguished (5 goals.... Or more) as possible before the end of June. We are working with the Division Directors and Area Directors to support those clubs that want to achieve this, talk to your Area Directors for more details. Please review your Club Success Plans and see what you still need to achieve and how we can help you do that.

### Other workshops or training sessions

There were helpful additions to the Pathway levels back in October, roles in level 1 & 2 that are vital to the learning process for newer members. Also updated educationals from the Successful Club Series, Better Speaker Series & Leadership Excellence Series were added to levels 3, 4 & 5 to enhance the learning for your members at Club level.

If any of this isn't clear or anyone needs help with these, please let me know. We can run educationals to help with this or just a phone call if that's all that is required. If it's something else excluding the changes to Pathways also please reach out.
